The Secretary of Defense
The Secretary of Interior
The Secretary of Agriculture
The Secretary of Commerce
The Administrator, National Aeronautics
and Space Administration
The Administrator, Environmental Protection
Agency
The Chief of Engineers, United States Army

SUBJECT: Establishment of the Committee for Civil Applications
of Classified Overhead Photography of the United States

The President has noted that the Commission on CIA Activities Within the United States in discussing classified overhead photography of the United States concluded that it can find no impropriety in permitting continued civilian use of such photography and that economy dictates the use of the photographs for appropriate civilian purposes. Accordingly, the President has directed the establishment of a civilian agency committee to oversee civilian uses of classified overhead photography taken over the United States.

To implement the President's decision, the following actions are to be taken:

1. The Secretary of Interior will form a Committee for Civil Applications of Classified Overhead Photography of the United States which will:
 - receive, evaluate, consolidate, standardize, establish priorities and transmit to the Director of Central Intelligence (DCI) all requests for such photography from domestic civilian agencies;
 - facilitate civilian agencies' use of classified systems and coordinate the incorporation of photography, derived data, and technology in performance of domestic civilian functions;

- supply information to civilian agencies so that they may knowledgeably formulate requests and reach compromises between requests and capabilities;
- act as the interface between civilian agencies and intelligence collectors, recognizing that the Director of Central Intelligence will not be involved in judgments concerning civil agency needs or priorities and that collection for this purpose will remain incidental to foreign intelligence collection;
- oversee civilian agency uses of classified photography in a manner designed to avoid any concerns that domestic photographic coverage is being used improperly.

In performing all of the above activities, the Committee will be subject to guidelines established by the President.

2. The committee will be chaired by the representative of the Department of Interior and will consist of representatives of the Departments of Agriculture and Commerce, the National Aeronautics and Space Administration, the Corps of Engineers and the Environmental Protection Agency. Membership may be expanded at the discretion of the Committee.
3. The Director of Central Intelligence will designate a representative to serve ex officio on the Committee for the purpose of liaison with the intelligence community, to assist in obtaining domestic photographic coverage, to address issues concerned with the use of classified products, and to facilitate the acquisition of security clearances for users. Since civil usage of data is enhanced if unclassified, the DCI's representative will be an intermediary on questions concerning release of classified information from security controls, as appropriate.

MEMORANDUM FOR

THE ATTORNEY GENERAL
THE ASSISTANT TO THE PRESIDENT FOR
NATIONAL SECURITY AFFAIRS
THE DIRECTOR, OFFICE OF MANAGEMENT
AND BUDGET
THE DIRECTOR OF CENTRAL INTELLIGENCE

I have completed my initial review of the Report of the Commission on CIA Activities within the United States and Agency comments on its recommendations and believe that it is appropriate to proceed promptly with the implementation of the majority of the Commission recommendations. Toward this objective, I direct the following:

The Director of Central Intelligence should prepare internal CIA regulations and guidelines to carry out the purposes of Commission Recommendations numbered 6, 9-13, 14b, 15b-c, 16-18, 20, 22-25, and 27-28. To the extent practicable, and within the bounds of prudent security, these regulations should be unclassified. The DCI should also review all current CIA regulations and directives for conformity with these recommendations, make such modifications as may be necessary, and, as noted above, provide for their declassification as appropriate.

The Attorney General and the Director of Central Intelligence should prepare and coordinate as necessary the internal procedures and guidelines suggested in Commission Recommendations 6, 14, 18 and 30. These agreed guidelines should, to the extent practicable, be unclassified.

The Assistant to the President for National Security Affairs, the Director, Office of Management and Budget,

- 2 -

and the Director of Central Intelligence should prepare a draft directive establishing an interagency committee to oversee the domestic uses of aerial intelligence photography. ✓

The above actions should be completed by August 31. Copies of the resultant directives should be forwarded to the White House for my information. ✓

To: Brent Scowcroft, Assistant to the President for
National Security Affairs
William E. Colby, Director, Central Intelligence Agency
James T. Lynn, Director, Office of Management and Budget

Subject: Establishment of the Committee for Civil Applications
of Classified Overhead Photography of the United States

I am pleased to form a Committee for Civil Applications of Classified Overhead Photography of the United States to perform the activities that are listed in your memorandum of October 3. I have designated Mr. William A. Radlinski, Associate Director, U.S. Geological Survey, as the Department of the Interior representative who, in turn, will serve as Chairman. His immediate backup will be Mr. Roy E. Fordham, Chief, Special Mapping Center, U.S. Geological Survey.

By a copy of this memorandum, I am asking the Secretaries of Defense, Agriculture, and Commerce; the Administrators of the National Aeronautics and Space Administration and the Environmental Protection Agency; and the Chief of Engineers, Department of the Army, to name their representatives on the Committee and inform me as soon as possible. Upon receipt, Mr. Radlinski will convene the first meeting of the Committee. Its first task will be to draft the performance guidelines for the approval of the President.

It is my understanding that the Committee will deal directly with the Director of Central Intelligence or the Standing Committee on Space Policy.

MEMORANDUM FOR: Director of Central Intelligence

SUBJECT : Committee for Civil Applications of
Classified Overhead Photography of
the United States.

1. The joint memorandum which you reviewed and signed on the above has now been issued. The next action for you to take is to designate your representative to serve ex officio on the Committee and to identify the channel to be used in transmitting requests for such photography from domestic civilian agencies.

2. Both of these functions involve interfaces with the COMIREX, and the appropriate representative is [redacted] as Chairman, COMISIA. This is consistent both with the tasking interface and in dealing with the classification and control questions which are involved. Attached for your signature is a memorandum to the Secretary of Interior advising him of this designation, with copies to Dr. Kissinger and Mr. Lynn as the joint signers of the implementing memorandum. STATINTL

3. I also recommend that the attached memorandum together with a copy of the joint memorandum be circulated to the USIB Principals for their information.

4. The DDI and DDS&T concur in these actions.

The President's 16 August memo says that "Kissinger, Lynn, and Colby should prepare a draft directive establishing an inter-agency committee." It doesn't say they will sign it, hence, I have some difficulty with the art form of Tab B. Seems like all of you should concur in the memo but be addressees of the implementing directive.

8 September 1975

MEMORANDUM FOR: Director of Central Intelligence

Sir:

1. When you reviewed, at Vermont, the memorandum for multiple addressees, Subject: "Establishment of the Committee for Civil Applications of Classified Overhead Photography of the United States" you had some difficulty with part of the third indented paragraph that showed on page 2. It is my recollection that your difficulty was in the fact that the use of the word "improperly", when used in relation to "for example law enforcement" in the memorandum could defeat one of the purposes for which it was designed.

2. DD/S&T has run this back through the National Security Council (NSC) mechanism and there is now attached for your consideration and signature a revised memorandum. As I understand your objection, and as I now read the new indented third paragraph on page 2, the matter is properly resolved.

3. As you may recall, we also pointed out that there should be an additional piece of paper, signed by the same three individuals who are signing the basic document addressed to the President. Only the President can direct Cabinet officers. There is attached, accordingly, at Tab A the previously signed memorandum to the President and the new memorandum on the Subject. For comparative purposes, at Tab B is the original draft with the objectionable language. For your information, Sayre Stevens is the DD/S&T officer who handled this matter with the NSC Staff. Sayre Stevens and I have reviewed this art form with Dr. Elliott, NSC, and Jeanne Davis, respectively. The upshot of the matter is that all agree format is a bit unusual and the President's initial instructions, i.e., draft and give me copies of resultant directives, were ill-advised. An additional factor is that James Lynn has taken the position that he definitely needs to sign the directive; hence, all we have consulted expressed the hope that you, too, will sign so that it will be a three-legged, rather than a two-legged, stool.
